Assists with foot-trimming.

Assists with crutching or dagging.

Knows that tail docking and castration can be carried out with rubber ring within the first week of life only

Knows that tail docking and castration can be carried out with rubber ring within the first week of life only

Knows that short docking of tails is not allowed. Knows that docked tail length must cover at least the anus of males and at least the vulva of females

Understands to symptoms of hypothermia (low body temperature) in lambs and the need to take action to warm the lamb

Knows that the electronic (yellow) tag should be placed in the left ear and that lambs destined for slaughter before 12 months of age need the electronic tag only.

Knows what method is used on farm including plunge dipping, sheep shower, jetter or pour-on. Understands to minimise contact with treated animals.

Knows when foot trimming should be carried out and why it is important

Knows when crutching or dagging should be carried out and why it is important

Knows and understands how to identify different breeds of sheep.

Knows that the electronic (yellow) tag should be placed in the left ear and that lambs destined for slaughter before 12 months of age need the electronic tag only.

Knows that short docking of tails is not allowed. Knows that docked tail length must cover at least the anus of males and at least the vulva of females

Knows that tail docking and castration too early can interfere with lamb suckling and prevent adequate colostrum intake

Prepares the animal for shearing/wool handling.

Understands wet-adoption and why it's used

Knows what method is used on farm including plunge dipping, sheep shower, jetter or pour-on. Understands to minimise contact with treated animals.

Job title

Sheep stockperson

Knows when foot trimming should be carried out and why it is important

Knows when crutching or dagging should be carried out and why it is important

Knows and understands how to identify different breeds of sheep.

Carries out electronic identification device tagging procedures under supervision.

Understands to symptoms of hypothermia (low body temperature) in lambs and the need to take action to warm the lamb

Assists with tail docking and castration under supervision.

Technology, Machinery and Vehicles

Competency

Supports successful technical operations through knowledge and skills of technology, machinery, vehicles and structures that enhances production and business viability.

Wears a suitable helmet when using an ATV.

Checks and drives a basic wheeled tractor with an attached implement on flat or hilly terrain.

Uses and looks after fencing tools effectively.

Follows effective building management practices as per business policy and procedures.

Ensures familiarity with key locations.

Ensures familiarity with farm layout.

Demonstrates appropriate instruction, training and certificates for driving vehicles used on farm.

Assists with erecting, maintaining and repairing electric and non-electric fences, walls and other boundaries and field separation features, as directed.

Demonstrates confidence using computers, smartphones, and apps, and uses technology-based systems to collect data to improve the quality of the workplace where applicable.

Demonstrates confidence linking technology with implements, computers, smartphones and apps, etc and collect data to improve efficiency and accuracy of operations.

Demonstrates experience using computers, smartphones, and apps.

Knows and understands how to use technology-based systems to collect data to improve efficiency of operations.

Knows and understands how to safely operate a light utility vehicle (LUV), with trailed equipment or a mounted load, on flat or hilly terrain.

Knows and understands how to select correct fuel when operating vehicles and machinery.

Knows and understands which driving licences are needed and when the renewal period is due, relevant to the job.

Knows and understands how to operate machinery safely.

Applies the value of collecting good quality data and how it can be used to make decisions.

Ensures responsible driving giving due care, respect and attention to others on site and on roads.

Knows and understands the business policy around use of mobile and smart phones for business and personal use at work.

Knows and understands the business policy around use of mobile and smart phones for business and personal use at work.

Knows and understands how to adapt their driving giving due care, respect and attention to conditions (slope, wet, etc), risks (overhead power cables, low buildings etc) and when towing loads.

Knows and understands how to safely operate a light utility vehicle (LUV), with trailed equipment or a mounted load, on flat or hilly terrain.

Job title

Sheep stockperson

Knows and understands how to select correct fuel when operating vehicles and machinery.

Knows and understands which driving licences are needed and when the renewal period is due, relevant to the job.

Knows and understands how to operate machinery safely.

Knows and understands how electronic systems work on-farm and what their role is.

Knows and understands the value of collecting good quality data and how it can be used to make decisions.

Holds certificates where needed and has undergone appropriate training to operate storage, warehouse and packhouse machinery used on farm.

Applies the value of collecting good quality data and how it can be used to make decisions.

Demonstrates familiarity with range of other technologies and aids on the farm.

Identifies problems, faults and inconsistencies requiring action.

Knows and understands basic vehicle maintenance and operation, including setting up and calibration to achieve required results.

Knows the importance technology plays within the industry and the opportunities available to them to use technology.

Knows the importance technology plays within the industry and the opportunities available to them to use technology.

Knows and understands how to adapt their driving giving due care, respect and attention to conditions (slope, wet, etc), risks (overhead power cables, low buildings etc) and when towing loads.

Knows and understands the business security process.

Knows and understands how to use technology-based systems to collect data to improve efficiency of operations.

Holds certificates or undertakes training with other farm machinery applicable to role.

Develops strategies to manage personal and external factors that may contribute to injury at work.

Knows and understands how electronic systems work on-farm and what their role is.

Knows and understands the value of collecting good quality data and how it can be used to make decisions.

Knows and understands the business security process.

Holds a current and relevant driver's licence.

Knows and understands basic vehicle maintenance and operation, including setting up and calibration to achieve required results.

Environment

Competency **Supports successful technical operations with knowledge and skills which ensures sustainable land use that enhances business and the environment.**

Knows and understands the key points about the farm environment plan and how they contribute to it.

Knows and understands the role nutrients play in farm systems, and the importance of good nutrient management.

Knows and understands how to dispose of and tidy up farm waste.

Knows and understands that no stock are allowed in or around waterways, and reports any stock in areas they should not be to senior staff.

Job title

Sheep stockperson

Knows and understands legal requirements around water use, and reports any issues to senior staff.

Knows and understands the need for efficient use of water.

Assists with water-related tasks.

Knows and understands the importance of good management practice around land cultivation, and how their actions impact on the environment.

Recruitment and Retention

Competency **Supports the business through use of knowledge and skills to fulfil employment obligations and plan career development.**

Focuses on their career development goals, and has a clear plan to achieve this.

Knows and understands their own training requirements for ongoing self-development, and to achieve their goals.

Knows and understands own rights around work time and workload, and to a reasonable work/life balance.

Knows and understands all employment obligations including specific responsibilities, accommodation agreements, minimum wage requirements, records of holidays and leave, hours worked and wages paid.

Knows and understands the true hourly rate they are being paid, and that remuneration is linked to their skills and responsibilities.

Knows and understands own rights around employment agreements, minimum wage requirements, and formal accommodation agreements (where applicable), and knows how to communicate any issues to superiors.

Knows and understands own rights around work time and workload, and to a reasonable work/life balance.

Knows and understands all employment obligations including specific responsibilities, accommodation agreements, minimum wage requirements, records of holidays and leave, hours worked and wages paid.

Knows and understands the true hourly rate they are being paid, and that remuneration is linked to their skills and responsibilities.

Knows and understands own rights around employment agreements, minimum wage requirements, and formal accommodation agreements (where applicable), and knows how to communicate any issues to superiors.

Knows and understands their own training requirements for ongoing self-development, and to achieve their goals.

Ensures accurate records are kept for leave, hours worked, and wages paid.

Abides by all employment obligations including specific responsibilities, accommodation agreements, minimum wage requirements, records of holidays and leave, hours worked and wages paid.

Waste Management

Competency **Supports the management of production through knowledge and skills that ensure the effective management of waste, in line with legal requirements**

Knows and understands the legal requirements of handling and storing both solid and liquid farm manures and effluent, and how effluent can impact the environment.

Knows and understands environmental protection practices of the system used for handling and storing both solid and liquid farm manures and effluents.

Knows and understands how liquid farm manure and effluent systems operate, and knows their responsibilities and what happens if problems occur.

Knows and understands farm procedure in relation to disposal of used disinfectants,

Job title

Sheep stockperson

Undertakes activities with both solid and liquid farm manures and effluents in line with legislation and business policies and procedures as directed.

Complies with the regulations governing the control of pollution from relevant facilities and materials.

Prevents contamination of soil by disposing of waste products in line with legislation (waste regulations).
